ELITE PREMIER

TUTORING & ACADEMICS MANAGEMENT

With a focus on custom, one-on-one instruction, Elite Premier pairs up to three students with an expert instructor. Through mentoring, each teacher is able to meet students' needs while setting goals, motivating, and identifying the necessary steps for each student's academic and holistic success.

1. Why Elite Premier Tutoring and Academics Management?

To achieve high scores on standardized tests such as the SAT, it is important to be in a class setting that provides structure, effective curriculum and practice. However, Elite Premier also provides every student with a customized tutoring plan to identify problem areas and help raise scores further. When it comes to receiving supplemental education for individual school subjects, because of varying teaching styles and curricula, a more focused and specialized environment is often necessary. Elite Premier Tutoring and Academics Management is oriented toward discovering each student's needs and applying Elite's body of knowledge to help students succeed.

2. What are the goals of Elite Premier?

The goals are to increase academic confidence through effective teaching, to instill a sense of vision, and ultimately, to guide students toward that vision through mentoring.

3. What are the benefits of Elite Premier?

This system helps students raise their grades, thus increasing their academic confidence. Elite Premier Tutoring and Academics Management allows teachers, branch directors, and staff to serve as mentors, motivate, and closely advise their students. This mentoring opens opportunities for setting goals and training students to become self-starters and self-learners.

4. Why Elite Premier instead of private tutoring?

Rather than being limited to academic curricula, Elite Premier Tutoring and Academics Management allows students to develop holistically and increase academic performance. Elite's teachers meet a high standard, and our continuous training gives them the best tools for continued student success. Our high teacher retention rate makes it possible for students to continue with their teachers for a long period of time, creating positive and meaningful mentoring relationships.

HOW TO ENROLL

Enrollment in our programs is on a first-come, first-served basis. Register early to avoid the last-minute rush and secure a place in the appropriate class. Each student must take a free diagnostic test and meet with a director before being placed in the appropriate class.

A \$50 non-refundable registration fee will be assessed for first-time students.

Prices and scheduling are subject to change without notice.

Online registration does not guarantee enrollment.
